

Long Valley Farm

NATURAL HORSEMANSHIP ZA

Long Valley Farm is just north of Robertson in the Western Cape. From Worcester on the N1, follow the R60 to Robertson. As you come into the town look for Paul Kruger St on the left. There is a KFC on the corner. Follow Paul Kruger St all the way through the town and out the other side until you see a vineyard in front of you. You will see a sign pointing left to Dassieshoek Nature Reserve.

Turn left here and follow the road out of town. The tar will become gravel, and you will go past a quarry on your left before starting to go up the hills. The road is very twisty and quite narrow in places, so please drive with care. Follow the road up the hill through two hairpin bends. As the road levels off and starts to go down again, you will see a pair of concrete gate posts, painted a kind of pink/orange colour.

Go through these and down the hill. You will bear left on the track past the first farmhouse and follow the track down the hill. At the bottom you will turn right across the river over a concrete bridge. Follow the track up the hill. If it is an event you are attending, where there are likely to be many spectators, please take the next right down by the river and park there. If not, drive straight ahead and either bear left up to the arena, or straight on for the house.

You can telephone us on 023 626 6836, but please be aware that cell phone coverage becomes patchy after the quarry, so you will want to phone by then.
